_process.h

```
graph BT; A[source/motion/scara_kinematics/scara_kinematics.c] --> C[source/motion/scara_kinematics/_process.h]; B[source/motion/scara_kinematics/_process.c] --> C;
```

This diagram illustrates the relationship between three source files in a project. At the top is a header file, `source/motion/scara_kinematics/_process.h`, which is shaded gray. Below it are two source files: `source/motion/scara_kinematics/scara_kinematics.c` on the left and `source/motion/scara_kinematics/_process.c` on the right. Both source files have blue arrows pointing to the header file, indicating that they include it.
